

Emory/Pittsburgh/Vanderbilt Center of Excellence in Hemoglobinopathies Research

You are cordially invited to attend Final Presentations of the 2016 Atlanta Sickle Cell Summer Research Program

Gregory Bell is rising junior at Lincoln High School, Tallahassee, FL. He worked in Dr. Lou Ann Brown’s lab at Emory Children’s Center. His project is “Sickle Cell Disease and Risk of Pneumonia: Will Anti-oxidants Help?”

Jonathan Johnson is a rising senior at Westlake High School in Atlanta, and a returning scholar. He worked with Drs. Jacqueline Hibbert and Mr. Zachary Kiser in Dr. Hibbert’s lab at MSM. His project is “Effect of Quercetin on Endothelial Cell Gene Expression after Hypoxia and LPS treatment.”

Spencer Ray is a rising senior at Westlake High School in Atlanta. He worked in Dr. Hyacinth Hyacinth’s lab at Emory Children’s Center. His project is “The role of inflammation and Oxidative Stress in Sickle Cell Lung Injury.”

Adia James is rising senior at Alabama School for Mathematics and Science in Mobile, AL. She worked with Dr. Jacqueline Hibbert and Mr. Zac Kiser at MSM. Her project is “Reduction of Ischemia Reperfusion Injury by Quercetin.” (pre-recorded)

Friday, July 22, 2016, 12 - 2 pm
Sickle Cell Foundation of Georgia
2391 Benjamin E. Mays Drive, Atlanta, GA 30311

Lunch will be served

RSVP by Friday, July 15 @ 5 pm, Email: bgee@msm.edu or Phone: 404-756-1335

This program is sponsored by NIH/NHLBI Excellence in Hemoglobinopathies Research Award, 1U54 HL117721, in collaboration with the Department of Pediatrics, Morehead State University School of Medicine
